PROFESSIONAL EXPERIENCE

Supply Chain Intern

Aug 2024 – Oct 2024

Freshneer Foods & Services Pvt. Ltd. | Ahmedabad, Gujarat

- Supported inventory monitoring and stock reconciliation activities across multiple product categories to ensure uninterrupted supply for production and customer demand.
- Coordinated with suppliers for purchase order follow-ups, delivery scheduling, and vendor communication to maintain smooth operational flow.
- Assisted in outbound logistics planning and dispatch coordination for warehouse and client deliveries while verifying shipment documentation.
- Worked on Zoho Inventory for GRN entries, item master updates, stock tracking, and operational reporting.
- Collaborated with operational teams in maintaining process accuracy, reducing stock discrepancies, and improving coordination efficiency.
- Developed practical exposure to supply chain workflows, operational execution, and cross-functional communication within a fast-moving business environment.

ACADEMIC PROJECTS

Impact of Drones on Logistics Operations

2025

- Conducted an extensive research study on drone technology's impact on modern logistics and supply chain operations, focusing on last-mile delivery, transportation efficiency, AI-driven automation, and urban air mobility.
- Evaluated industry case studies including Amazon Prime Air, UPS Flight Forward, Zipline, and Wing by Alphabet; explored regulatory compliance, airspace management, cybersecurity risks, and infrastructure readiness challenges.

- Studied significance of drones across healthcare, e-commerce, disaster relief, agriculture, and warehouse management while assessing impact on cost reduction, delivery optimization, and sustainable supply chains.

The Digital Dock – How SCM Technology is Redefining Shipping Logistics

2024

- Researched the impact of SCM technologies, AI, IoT, and predictive analytics on shipping and logistics operations within the Indian maritime sector; studied supply chain functions including procurement, transportation logistics, and port operations.
- Analyzed Maersk, MSC, CMA CGM, Evergreen Marine, and Hapag-Lloyd to evaluate competitive logistics strategies explored technology-driven optimization improving efficiency, visibility, sustainability, and customer service.

Beyond Gasoline – EV Charging Infrastructure in India

2024

- Developed a conceptual supply chain and operational model for EV charging road infrastructure deployment in India.
- Performed feasibility research involving logistics planning, infrastructure requirements, and implementation challenges.
- Studied operational, technological, and market factors influencing EV infrastructure adoption and scalability.
